Re: MSBU for Hidden Shores Subdivision Road Paving & Retention Ponds Maintenance

Dear Property Owner:

Please be advised that the county has received a request from a property owner in your neighborhood to implement a Municipal Services Benefit Unit (MSBU) to pave the roads and perform maintenance on the retention ponds in the Hidden Shores Subdivision.

The contact listed below will be circulating a petition that provides all the necessary information.

If approved, the annual assessment will appear on your property tax bill as a non-ad valorem assessment. Exemption from ad valorem assessments does not exempt from a non-ad valorem assessment. Failure to pay the non-ad valorem assessment could result in loss of property.

Your point-of-contact for the petition is:
